## *A Moment with Donna...Innovation*

The 4<sup>th</sup> of July, a significant holiday for us here in the United States, will be celebrated a bit differently this year due to the Corona Virus. However, fireworks stands have been going up and I suspect many people will still be making a lot of noise as usual.

We are such a young country yet our history is loaded with phenomenal stories regarding the ingenuity and innovation that Americans developed. Here is one I didn't know about, and I daresay few of you will either.

~~~~~

*This is about the B-24s, and the long hanger at Willow Run, Michigan. This hanger is a bit unique as it has a 90 degree turn in it so Henry Ford would not have to pay taxes in the next county. That short end is being saved and restored today as a museum. The big hanger doors are still operational after all these years.*

*This is one of the best and most informative clips about a great American accomplishment, thanks to the Ford Motor Company during WWII. A Ford Airplane! AMAZING!*

*Production began here 6 months BEFORE Pearl Harbor! Henry Ford was determined that he could mass produce bombers just as he had with cars, so he built the Willow Run assembly plant and proved it. This was the world's largest building under one roof at the time. This film will absolutely blow you away -- one B-24 every 55 minutes! Ford had its own pilots to test them. And no recalls!*

*No one, including our enemies during WWII, had any idea that the United States was capable of this kind of production. ~Author of this commentary unknown.*

Innovation...Introduction of new things or methods. That is exactly what is evolving today in our various environments. We are being challenged to shift because of a microscopic alien enemy. This also

happened in the past, in the 20<sup>th</sup> century, in various ways as well. Challenges always demand attention so that we can problem solve if we are willing to be innovative, thinking outside the box. Today I viewed a mask a young man had designed using LED lights that would show when you are smiling. Interesting to say the least...it reminded me of a horror movie segment I saw a number of years ago.

Regardless, I firmly and strongly believe that American ingenuity and innovation exists today and that we are up to the challenges we are living through at the moment. This too shall pass and out of the discord, frustration, confusion, and yes...even the conflicts of attitudes, we shall see progress evolve.

Our ancestors faced serious challenges and that is always going to be a part of living. We are celebrating a very special holiday on the 4<sup>th</sup> and we have just as much guts, spunk, creativity, and more to work with than they did. We can show the upcoming generations we are just as passionate as our ancestors were, to rise up to the challenges of our era.

Happy 4<sup>th</sup>, Happy Summer, and be safe.

“The spirit of truth and the spirit of freedom – they are the pillars of society.” ~ Henrik Ibsen

### *July's Chuckle*

In the foyer of a church, a young boy was looking at a plaque with the names of men and women who had died in various wars. He asked the pastor, “Who are these people?” The pastor said, “Those are members from our church who died in service.” The boy asked, “The early service or the second service?” ~J.P. Minnesota
